  - a. Have persisted over a significant period of time or, through only in evidence for a short period of time, are of such critical nature that intervention is warranted;
  - b. Are significantly disabling and are present in several community settings, such as home, in school or with peers; and
  - c. Require services or resources that are unavailable or inaccessible, or that are beyond the normal agency services or routine collaborative processes across agencies, or require coordinated interventions by at least two agencies.
